Hi Sam,

Good morning. I am reaching out to seek your help in drafting a blurb for a hot topics issue document being developed for NTOC. We thought it would be appropriate to include a page on Rosemont. Please see info below.

I just spoke with Russ Kaiser at OWOW and he indicated an openness to reviewing the draft. Please note the quick turn-around. Topics must be OGC-approved before they are submitted into the SharePoint document by March 22:

! As March 22 quickly approaches, I wanted to send a friendly reminder regarding the NTOC "hot topics" document.

Here is what you need to know:

- Please input your **OGC pre-approved** Hot Topics by **COB Friday, March 22**.
- Put your comments into the collective SharePoint document [linked here](#) (no need to use track changes). For your reference, [here](#) is the 2017 NTOC Hot Topics document (which is the starting point for the current document).
- AIEO will be looking to each program office to brief their participating senior managers on their respective Hot Topics section so they can be prepared during the NTOC.

Please reach out to me with any questions. Thank you!
